Journalist and political leader. Official stenographer’s reports (1945–1946) of the eight hearings of the U.S. Federal Power Commission’s investigation of the natural gas industry; and reports (1947–1948) containing the findings of the commission. Also included in this collection are supporting documents (1924–1943) used during the investigation, including maps, charts, publications, and reports. Among the publications are the annual reports (1924–1940) of the Federal Power Commission, of which Wimberly was vice chairman.
